SECRETARY TO GOVT. LOCAL SELF GOVT. DEPARTMENT + ASST. SECRET. -4 OCT 1925

The Market. The question of finding a new market site is not an easy one but it is certainly important as meat and vegetables are exposed in a very undesirable manner in the stalls on the main street exposed to the sun and dust. It is questionable how far it would be possible to get people to go from the existing site. The weekly market site about 500 yards from the existing site is condemned as being out of the way. I did not see any site which I could recommend. The nearest open land is on the West side of Brahmin Street but I believe this is a Mission School compound. If some land could be obtained in that area and connections made with Brahmin, Car and Goldsmith Streets it should be reasonably convenient for most of the residents.

A road connecting Car street with Goldsmith Street at this spot and another connecting the latter with the entrance to the station along the western boundary of the Collector's Butchery would provide a convenient route to the station from the Car Street and a large part of the town and relieve the congestion in Brahmin Street and Bangalore Road and bring the proposed market site within a few 100 yards of the station. I have not investigated such a scheme in detail on the site and it is possible there are many snags but as markets are found to be so remunerative in many towns, a scheme for the provision of an adequate market may stand a chance of coming to fruition where ordinary town improvement

schemes would be financially impossible. Income from this source in Bellary is very meagre and the subject should I think be worthy of examination. A sketch roughly indicating this proposal is attached. It is difficult to suggest any other site unless one could be found on the northern edge of the built up area near the Bangalore Road.

Sir,

Referring to Government Memo No. 23787-1 L & M., dated 13-10-23, I have the honour to forward herewith a copy of Council's Resolution No. 24 dated 29-11-23 in regard to the provision of an ade uate market at Bellary.

An estimate was prepared for a combined market for the sale of vegetables and meat to the east of the present daily vegetable market acquiring some of the private houses in the locality. After the preparation of the estimate the Town Planning Officer's remarks with regard to the site proposed by him for a market were received. The site proposed by the above officer belongs to the London Mission and there is no likelihood that they would part with the land as there is a Secondary school and a girls' school within the premises. The estimate referred to above has been

been sent to the Sanitary Engineer for his approval.

The Chairman reports that the site proposed by the Director of Town Planning belongs to the London Mission and there is no likelyhood of their parting with it. There are 2 Schools within the premises. The committee however prepared situated for a combined vegetable and meat market and has forwarded the same to the Sanitary Engineer for approval. The question of site is still under consideration. No more action seems necessary. The papers may be recorded.

Sir,

In reply to the above and returning the letter and sketch, I have the honour to inform you that the London Mission would not be willing to part with the site alluded to in the letter, as a scheme for the development of our school contemplates the use of the site in question for additional purposes of games and buildings.
